

ServiceNow (www.servicenow.com) is a dominant and leading player enabling digital transformation with advanced features for managing IT operations and processes.

Leveraging **ServiceNow** cloud-based **Platform as a Service** we can build, automate and integrate enterprise Apps to connect people and processes, all on one platform!

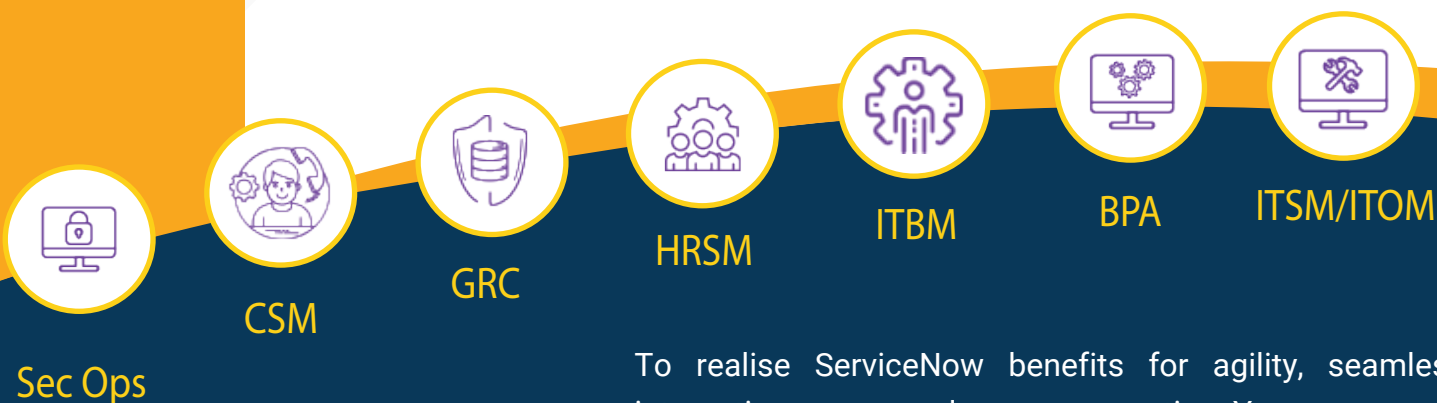

Recent innovations of adding new features have enabled “Now Platform” to be a top choice of CIOs.

Gradient M IT Consulting & Services (www.gradientm.com), is focused on providing professionals services and support for Global Clients in IT & Digital space. Our implementation and support capabilities cover all Modules of ServiceNow, by certified experts.

These experts, apart from ServiceNow certifications, bring in complex project execution experience in relevant industry domains.

Proprietary ServiceNow Auto-Testing Tool

We have our own niche Product for Automated Testing, which cuts down 60% of migration and version upgrade timeline.

To realise ServiceNow benefits for agility, seamless integration you can rely on our expertise. You can engage us for assessing and improving your existing ServiceNow Implementation, Upgrades, Integrations or simply augmenting your team’s capabilities with high impact talent.
